## **TCP Launches an Expanded Line of LED Lighting Solutions at LIGHTFAIR® International 2017**

### **Leader in energy-efficient lighting is delivering an enhanced experience with its increased LED Lamp and Luminaire Portfolios**

AURORA, Ohio, May 9, 2017 /PRNewswire/ -- Philadelphia Convention Center – Booth #2513 – Technical Consumer Products, Inc. (TCP), a leader in energy-efficient lighting innovations, is exhibiting its expanded line of LED products developed to enhance end user experience during LIGHTFAIR® International 2017 at the Philadelphia Convention Center. In booth #2513, TCP will feature its production and prototype models of new LED technology including its new LED PL Lamps, full lines of LED indoor and outdoor luminaires, intelligent lighting solutions for practical applications, plus a broad line-up of LED lamp options for everyday.

"We are continually working to provide products that enhance the user's experience," said Paul Phillips, Senior Director of Product Management for TCP. "At this year's show our Luxterior line of LED Indoor luminaires enhance the user's experience by providing exceptional light output for commercial spaces. We also will be showcasing our new Elements Line of LED Outdoor Luminaires and our Industria line of LED Luminaires for industrial spaces. Our products are designed to take advantage of energy saving LED technology while not sacrificing performance and user experience."

For more information about all of the energy efficient LED products TCP has to offer, visit TCP at LIGHTFAIR International Booth 2513 or online [www.tcpi.com](http://www.tcpi.com)
